

# Building towards our future

St Leonard's College

FOUNDATION

Supporting an education for life

## Your contribution to the Building Fund

For over 100 years, St Leonard's College has been able to realise its building development programs thanks to regular donations to the Building Fund made in conjunction with the payment of school fees.

The community spirit conveyed by our parents, past and present, enables our students to learn in subject-specific environments, and we continually strive to provide the best learning spaces possible. Your contributions to the Building Fund support the College to fulfill its vision of providing an education for life for current and future generations of Leonardians.

Throughout our history, we have sought to keep abreast of learning innovations and to provide environments in which learning is unencumbered. Today, our students enjoy well-equipped Science classrooms, separate Junior, Year 5/6, Middle and Senior Schools, outstanding sports and music facilities, while the medical centre and cafeteria further provide for their well-being.

The recently opened Visual Arts Centre is another example of our vision and what your donations to the Building Fund can achieve. Here, our students explore their creativity in the Contemporary and Fine Arts, Visual Communications and Design, Textiles, Media and more. We are most grateful to those who have supported this project through their regular donations to the Building Fund.

In 2017, work continues on our next Building Fund project - Learning Futures. This project will see the development of a new library, Year 9 Centre and drama theatre.

The library will feature distinct spaces for independent study, wide reading and collaborative work, as well as retaining the breadth of the current library collection - all this in a modern, modular and technology-rich environment.

The Year 9 Centre will provide a dedicated space for students to engage in pastoral sessions, collaborative learning, and further explore the domains of the CUE program.

The development of a vibrant, purpose-built drama and theatre hub will enhance learning and performance opportunities. The inclusion of a lighting rig, sound desk, mirrors and costume store will provide students with hands-on stagecraft experience and flexible performance spaces. This upgrade will create a state-of-the-art venue, with the new foyer serving as an impressive entry point for our theatre productions.

It is important to understand that voluntary Building Fund contributions are not for general maintenance of buildings and/or grounds, and are tax deductible. Please consider making a regular gift to the fund as part of your fees payment each term.

Thank you in anticipation of your support.
